assessment **155:**91-102
hyperalgesia duration in hindlimb lameness in dairy cattle **156:**23-9
Clostridium perfringens virulence determinants, molecular analysis in foal diarrhoea **155:**289-94
collagen distribution in ovine vaginal wall **155:**213-15 (SC)
Columba livia see pigeon
confounding-type bias **156:**1-2 (E)
cortisol in dog serum, effect of haemolysis, lipaemia and bilirubinaemia on ELISA for **156:**127-31
creatine kinase
activity in racehorses related to age, sex, exercise and training **155:**295-304
level changes following EMG in anaesthetized dog **156:**231-3 (SC)
Cryptosporidium in cats **156:**159-61 (SC)
CT vs other imaging techniques for lameness in horse **155:**223-9

diarrhoea
molecular analysis of virulence determinants of Clostridium perfringens in foals **155:**289-94
equine **155:**119-21, **155:**149-59, **155:**161-70
rehydration therapy for calves **155:**263-74
virus antigen capture ELISA for diagnostic testing in cattle **156:**149-54
distemper virus vaccination response in puppies **155:**171-5
dog
anaesthetized, creatinine kinase level changes following EMG **156:**231-3 (SC)
causes of progressive retinal atrophies **155:**5-18
distemper virus vaccination response in puppies **155:**171-5
effect of haemolysis, lipaemia and bilirubinaemia on ELISA for cortisol and free thyroxine in serum **156:**127-31
fucosidosis diagnosis in spaniels **155:**113-14
gastric disease **156:**91-106
genetic diseases **155:**1-2 (E)
matrix metalloproteinase-2 isolation and identification **155:**231-7
osteosarcoma, host-related risk factors **156:**31-9
recombinant human erythropoietin use as adjuvant therapy for blood banking for autotransfusion **155:**239-44
dysautonomia see grass sickness
dyschondroplasia see osteochondrosis

echocardiography of LV diastole in cat **156:**203-15
electrical stunning slaughter variations in pigs **155:**85-90
electrolyte and fluid balance in equine diarrhoea **155:**149-59, **155:**161-70
ELISA
assessment of distemper virus vaccination response in puppies **155:**171-5
diarrhoea virus antigen capture, for diagnostic testing in cattle **156:**149-54
effect of haemolysis, lipaemia and bilirubinaemia for cortisol and free thyroxine in dog serum **156:**127-31
embryo transfer technique to produce EAE-free lambs from infected dams **155:**79-84
environmental effect on equine pulmonary function and airway reactivity in COPD **155:**189-95
enzootic abortion of ewes, producing healthy lambs by multiple ovulation and embryo transfer techniques **155:**79-84
epidemiological studies **156:**1-2 (E)
equine see horse
equinins in neutrophils, quantification in tracheobronchial secretions to diagnose chronic pulmonary disease **155:**257-62
erythrocytes, camel, N-ethylmaliemide-stimulated potassium transport in **156:**145-8
erythropoietin, recombinant human, use as adjuvant therapy for blood banking for autotransfusion in dogs **155:**239-44

n-ethylmaliemide-stimulated potassium transport in camel erythrocytes **156:**145-8
exercise
oral rehydration solution effects in horses **155:**69-78
performance in geriatric mares, effect of equine somatotropin **155:**19-25
rehydration following, effects of water vs isotonic oral rehydration solution in horse **156:**41-9

feline see cat
fibrinogen levels as parameter of acute-phase response in dairy cows with surgically-treated abdominal disorders **155:**53-61
fish, choroidal body carbonic anhydrase activity and glycogen levels in halibut **156:**223-9
flow cytometric analyses in horse **156:**79-80 (E), **156:**107-16, **156:**117-26
fluid
and electrolyte balance in equine diarrhoea **155:**149-59, **155:**161-70
replacement following exercise in horse **156:**41-9
fluoroimmunoassay, albumin levels in sheep serum analysis by **156:**67-72
fox, rabies control **156:**83-90
fucosidosis diagnosis in spaniels **155:**113-14

gastric disease in dog and cat **156:**91-106
genetic
defects **156:**3-4 (E)
diseases in dogs **155:**1-2 (E)
globulin levels as parameter of acute-phase response in dairy cows with surgically-treated abdominal disorders **155:**53-61
glucocorticoid effect on phagocytic function of sheep alveolar macrophages **155:**177-81
glycogen levels in choriodal body of halibut **156:**223-9
goat, effects of single and divided doses of albendazole on pharmacokinetics **155:**311-16
grass sickness in horses in UK **156:**7-14
growth cartilage in horse, application to osteochondrosis **156:**177-92
growth hormone see somatotropin
guttural pouch function **155:**115-17 (E), **155:**139-48

H2 receptor antagonists for gastric disease therapy in cat and dog **156:**91-106
haemolysis effect on ELISA for cortisol and free thyroxine in serum in dog **156:**127-31
Haemophilus somnus infection, bovine serum transferrin concentration during **155:**251-5
halibut see under fish
haptoglobin levels as parameter of acute-phase response in dairy cows with surgically-treated abdominal disorders **155:**53-61
HIV similarity to feline immunodeficiency virus **155:**123-37
horse
alveolar clearance, scintigraphy **156:**51-8
aspartate aminotransferase and creatine kinase activity in racehorses related to age, sex, exercise and training **155:**295-304
biochemical markers of bone metabolism **156:**163-5 (E), **156:**169-75
cathepsin B immunolocalization in dyschondroplastic articular cartilage **156:**193-201
developmental osteochondral lesions, biomechanics role **156:**167-8 (E)
equine diarrhoea **155:**119-21 (E), **155:**149-59, **155:**161-70
equine somatotropin, therapeutic role **155:**3-4 (E)
effect on aerobic capacity or exercise performance **155:**19-25
equinins in neutrophils quantification in tracheobronchial secretions to diagnose chronic pulmonary disease **155:**257-62
grass sickness in UK **156:**7-14
growth cartilage application to osteochondrosis **156:**177-92

guttural pouch function **155:**115-17 (E), **155:**139-48
imaging techniques **155:**221-2 (E). **155:**223-9
molecular analysis of virulence determinants of Clostridium perfringens in foals **155:**289-94
oral rehydration solution effects at rest and during exercise and recovery in **155:**69-78
phagocytosis and flow cytometric analyses **156:**79-80 (E), **156:**107-16
rehydration following exercise, effects of water vs isotonic oral rehydration solution **156:**41-9
stable environment effect on pulmonary function and airway reactivity in COPD **155:**189-95
hyperalgesia duration in hindlimb lameness in dairy cattle **156:**23-9
hypomagnesaemia, role of magnesium and calcium secretion in saliva of sheep **156:**217-21

ICTP as bone marker in horse **156:**163-5 (E), **156:**169-75
imaging technique **155:**221-2 (E), **155:**223-9
impulse oscillation technique for measuring respiratory impedance in calves **155:**27-38
inflammation, acute, evaluation of tolfenamic acid pharmacodynamics/kinetics in ruminating calves **155:**275-88
inherited conditions **156:**3-4 (E)
isotonic rehydration solution for fluid replacement following exercise in horse **156:**41-9

ketoprofen effect on PAF-induced bovine platelet aggregation **155:**201-3 (SC)

lameness
in dairy cows **156:**5-6 (E)
hindlimb, hyperalgesia duration **156:**23-9
imaging **155:**221-2 (E), **155:**223-9
leucocyte adhesion deficiency, bone marrow transplantation in Holstein heifer with **156:**15-21
lipaemia effect on ELISA for cortisol and free thyroxine in serum in dog **156:**127-31

magnesium secretion in saliva of sheep, role in hypomagnesaemia **156:**217-21
mammary carcinoma, feline tumour suppressor gene p53 mutations **155:**103-6 (CR)
mastitis, identification of coagulase-negative staphylococci in sheep **155:**183-8
matrix metalloproteinase-2 isolation and identification in dog **155:**231-7
milk, identification of coagulase-negative staphylococci in sheep **155:**183-8
MRI vs other imaging techniques for lameness in horse **155:**223-9
mucosal protectants for gastric disease therapy in cat and dog **156:**91-106
muscles, post mortem pH decline influenced by species in rhea **155:**209-11 (SC)
Mycobacterium bovis infection transmission from cattle to cattle **155:**245-50

near infrared spectroscopy of normal bovine claw **156:**155-8 (SC)

oestradiol, vaginal capacity and wall compliance changes in ewes before and after **156:**133-43
omphalatic lesions in lambs, bacteria isolated from **156:**235-8 (SC)
osteosarcoma, canine, host-related risk factors **156:**31-9
osteocalcin as bone marker in horse **156:**163-5 (E), **156:**169-75
osteochondral lesions, equine developmental, role of biomechanics **156:**167-8 (E)
osteochondrosis
in articular cartilage, cathepsin B immunolocalization in horse **156:**193-201
growth cartilage in horse, application to **156:**177-92
osteosarcoma, feline tumour suppressor gene p53 mutations **155:**103-6 (CR)
oxidative burst activity and flow cytometric analysis **156:**117-26

pain
from lameness in dairy cows **156:**5-6 (E)
reduction of tail docking and castration in lambs **155:**39-51
PCR-based test for fucosidosis diagnosis in spaniels **155:**113-14
pH decline in post mortem rhea muscles, influenced by species **155:**209-11 (SC)
phagocytosis and flow cytometric analyses **156:** 79-80 (E), **156:**107-16
PICP as bone marker in horse **156:**163-5 (E)
pig slaughter, electrical stunning tong placement variations **155:**85-90
pigeon, amoxycillin pharmacokinetics and efficacy for Streptococcus bovis infection in **156:**59-65
platelet aggregation, PAF-induced, ketoprofen effect in cattle **155:**201-3 (SC)
potassium transport, N-ethylmaliemide-stimulated, in camel erythrocytes **156:**145-8
pregnancy toxaemia in sheep, effect of recombinant bovine somatotropin in **155:**197-9
progesterone, vaginal capacity and wall compliance changes in ewes before and after **156:**133-43
prostaglandin analogues for gastric disease therapy in cat and dog **156:**91-106
proton pump inhibitors for gastric disease therapy in cat and dog **156:**91-106
pulmonary
carcinoma, retroviral aetiopathogenesis of ovine **155:**217 (C)
disease, equine, equinins in neutrophils quantification in tracheobronchial secretions to aid diagnosis **155:**257-62
function in equine COPD, stable environment and **155:**189-95

rabies epidemiology and elimination in W. Europe **156:**83-90
radiography vs other imaging techniques for lameness in horse **155:**223-9
rehydration
following exercise, effects of water vs isotonic oral rehydration solution in horse **156:**41-9
solution effects at rest and during exercise and recovery in horses **155:**69-78
for equine diarrhoea **155:**161-70
therapy for diarrhoea in calves **155:**263-74
respiratory
impedance measurement in calves with impulse oscillation technique **155:**27-38
mechanical function in neonatal calves postpartum **156:**73-6 (SC)
retinal atrophies, progressive, causes **155:**5-18
retroviral aetiopathogenesis of ovine pulmonary carcinoma **155:**217 (C)
rhea muscles, post mortem pH decline influenced by species **155:**209-11 (SC)

scintigraphy of alveolar clearance in horse **156:**51-8
sheep
albumin levels in serum, analysis by fluoroimmunoassay **156:**67-72
alveolar macrophages, effect of glucocorticoids on phagocytic function **155:**177-81
bacteria isolated from arthritic and omphalatic lesions in lambs **156:**235-8 (SC)
collagen distribution in vaginal wall **155:**213-15 (SC)
EAE-free lambs from infected dams using multiple ovulation and embryo transfer **155:**79-84

effect of recombinant bovine somatotropin in pregnancy toxaemia **155:**197-9
effect of single and divided doses of albendazole on pharmacokinetics **155:**311-16
magnesium and calcium secretion in saliva, role in hypomagnesaemia **156:**217-21
milk, identification of coagulase-negative staphylococci **155:**183-8
pain reduction of tail docking and castration in lambs **155:**39-51
retroviral aetiopathogenesis of pulmonary carcinoma **155:**217 (C)
thorax examination by US **155:**305-10
vaginal capacity and wall compliance changes before and after oestradiol and progesterone treatment **156:**133-43
vaginal prolapse, US examination **155:**323-4 (SC)
slaughter variations in pigs **155:**85-90
somatotropin
equine, therapeutic role **155:**3-4 (E) effect on aerobic capacity or exercise performance **155:**19-25
recombinant bovine, effect in ovine pregnancy toxaemia **155:**197-99
staphylococci, coagulase-negative, identification in sheep milk **155:**183-8
Streptococcus bovis infection in pigeons, amoxycillin pharmacokinetics and efficacy for **156:**59-65
stress, transport-related, partitioning psychological and physical sources in cattle **155:**205-8 (SC)
swallowing augmentation and guttural pouches **155:**115-17 (E)

tail docking in lambs, pain reduction **155:**39-51
technetium-99m-DTPA clearance in horse, scintigraphy **156:**51-8
thorax examination by US in sheep **155:**305-10
thyroxine, free, in dog serum, effect of haemolysis, lipaemia and bilirubinaemia on ELISA for **156:**127-31
tolfenamic acid pharmacodynamics/kinetics in ruminating calves **155:**275-88
transferrin, bovine serum, concentration during acute Haemophilus somnus infection **155:**251-5
transport-related stress in cattle, partitioning psychological and physical sources of **155:**205-8 (SC)
tuberculosis see also Mycobacterium bovis

urine high-performance liquid chromatography as bone marker in horse **156:**163-5 (E)

vagina
capacity and wall compliance changes in ewes before and after oestradiol and progesterone treatment **156:**133-43
prolapse in sheep, US examination **155:**323-4 (SC)
wall, collagen distribution in sheep **155:**213-15 (SC)
vagus nerve anatomy in bactrian camel **155:**317-22
veterinary laboratory testing **156:**81-2 (E)
villus structure problems with oral rehydration solutions for diarrhoea in calves **155:**263-74
vomiting, chronic, without gastric obstruction in cat and dog **156:**91-106

water administration effects at rest and during exercise and recovery in horses **155:**69-78
welfare of dairy cows with lameness **156:**5-6 (E)
